PROJECTS

Website Demo for “Letterboxd” (ReactJS, SCSS) [Github](#) | [Site](#)

- Helped to convert a design from design challenge into working front-end code for the website called “Letterboxd” using ReactJS and SCSS.
- Challenged myself to implement all the design by writing my own CSS.
- Took benefits of SCSS like looping, conditional statements, etc.

Weather App (ReactJS, SCSS) [Github](#) | [Site](#)

- Practiced ReactJS skills in this project, integrating SCSS which was a new technology for me.
- Learnt to resolve various asynchronous function related challenges while fetching data from an online API (weatherapi.com).
- Got some hands-on experience with using SCSS which made building the webapp much easier.
